

Electric All-Terrain Vehicle Solutions

CTS provides highly durable electric vehicle solutions for off road and all terrain vehicles.

Other CTS Solutions

- Controls
- Position Sensors
- Switches

Motor Control

- Inverter
- Motor Position (MPS)
- Power distributions units

Battery Management

- Battery Monitoring System (BMS)
- LV and HV Battery Sensor
- Redundant current sensor

Charging System

- AC/DC current monitoring
- Managing current flow in fast charging applications
- DC-DC converter

Protection

- Over Current Protection
- Pyro Switch

Product	Motor Control	Battery Management	Protection (Over Current, Pyro Switch)	Onboard Charger
Clamp-On Current Sensor		x		x
Busbar Mount Current Sensor		x	x	x
PCB mount Current Sensor		x	x	x
Motor Position sensor	x			
Battery Management System (BMS)		x	x	

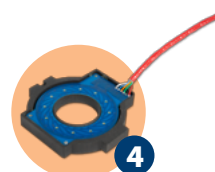

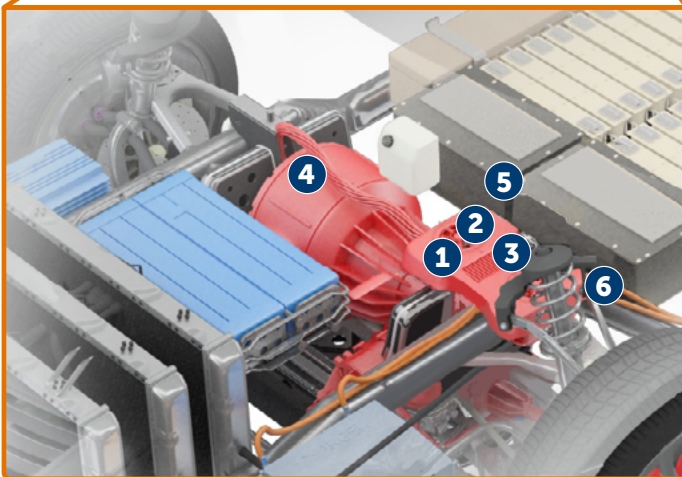

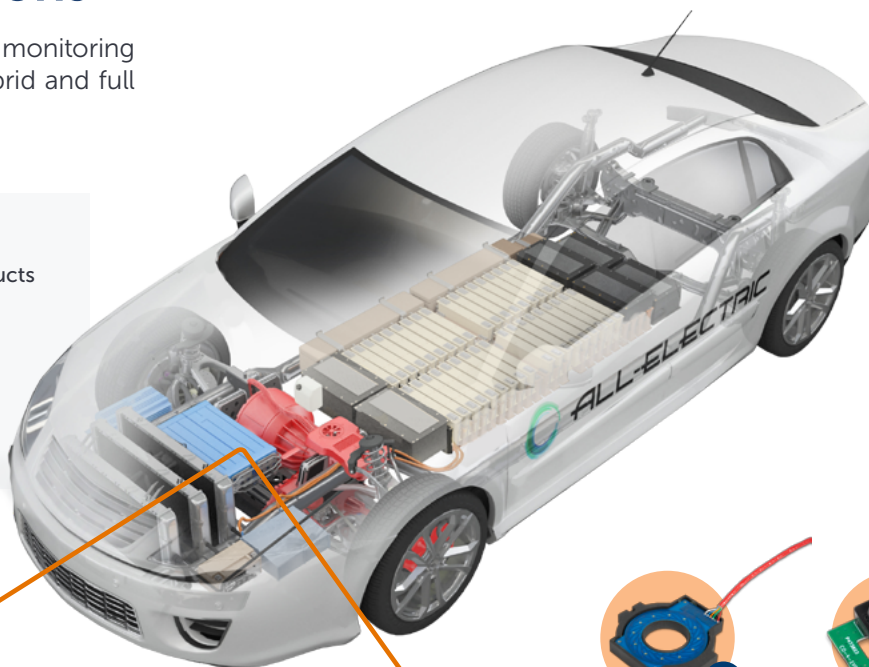

For other controls, sensors, and switches, contact us at ctscorp.com or ask for more information from our representatives.

Electric Passenger Vehicle Solutions

CTS provides electrical monitoring and pedal solutions for hybrid and full electric vehicles.

More CTS Solutions

- Pedal and Foot Controls
- Frequency Control Products
- Interior System Controls
- Interior and Exterior Sensing Solutions
- Custom Solutions With Full Engineering Team Support

**High Speed
Position Sensor**

**Clamp On
Current Sensor**

**Battery Management
System (BMS)**

**Busbar
Current Sensor**

**eBrake™
Drive-By-Wire Pedal**

**PCB
Current Sensor**

Product	Motor Control	Battery Management	Protection (Over Current, Pyro Switch)	Onboard Charger
Clamp-On Current Sensor		x		x
Busbar Mount Current Sensor		x	x	x
PCB mount Current Sensor		x	x	x
Motor Position sensor	x			
Battery Management System (BMS)		x	x	

For other CTS solutions, contact us on ctscorp.com or ask our a representative for more information.

Material Handling Vehicle Solutions

CTS provides highly durable electric vehicle solutions for industrial and warehouse vehicles.

Other CTS Solutions

- Controls
